

**Worcester**  
CITY COUNCIL

## **COMMUNITIES COMMITTEE**

### **SUPPLEMENTARY AGENDA**

**Date: Wednesday, 7th June, 2023**

**Time: 7.00 pm**

**Venue: The Guildhall**

## COMMUNITIES COMMITTEE

### Information for Members of the Public

Access to the Guildhall is via the front entrance in the High Street. The nearest car park is Copenhagen Street (pay and display). If you are a wheelchair user or have restricted mobility, access to the Guildhall can be gained either through the door on the right side of the forecourt as you face the Guildhall, or through the sliding doors at the rear of the Guildhall. There is dedicated disabled parking space at the rear (access via Copenhagen Street). Most meetings are held on the ground floor, which can be reached by using a lift. If you are a wheelchair user or have restricted mobility and you wish to attend a meeting, please telephone or email the officer mentioned below in advance and we will make any necessary arrangements to assist your visit.

Part I of the Agenda includes items for discussion in public. You have the right to inspect copies of Minutes and reports on this part of the Agenda as well as background documents used in the preparation of these reports. Details of the background papers appear at the foot of each report. Part II of the Agenda (if applicable) deals with items of 'Exempt Information' for which it is anticipated that the public may be excluded from the meeting and neither reports nor background papers are open to public inspection.

Please note that this is a public meeting and members of the public and press are permitted to report on the proceedings. "Reporting" includes filming, photographing, making an audio recording and providing commentary on proceedings. Any communicative method can be used to report on the proceedings, including the internet, to publish, post or share the proceedings. Accordingly, the attendance of members of the public at this meeting may be recorded and broadcast. By choosing to attend this public meeting you are deemed to have given your consent to being filmed or recorded and for any footage to be broadcast or published.

Please note the Council records and live streams many of its meetings. These recordings are published on the relevant meeting pages of the Council's website. A notice to this effect will be posted in the meeting room. If a member of the public chooses to speak at a meeting of the City Council he/she will be deemed to have given their consent to being recorded and audio being published live to the Council's website. The Chair of the meeting, can at their discretion, terminate or suspend recording, if in their opinion, continuing to do so would prejudice the proceedings of the meeting or if they consider that continued recording might infringe the rights of any individual, or breach any statutory provision.

At the start of the meeting under the item 'Public Participation' up to fifteen minutes in total is allowed for members of the public to present a petition, ask a question or comment on any matter on the Agenda. Participants need to indicate that they wish to speak by 4.30 p.m. on the last working day before the meeting by writing, telephoning or E-Mailing the officer mentioned below.

If you have any general enquires or queries about this Agenda or require any details of background papers, further documents or information, or to discuss arrangements for the taking of photographs, film, video or sound recording please contact the Lead Officer, Julian Pugh, Democratic Services Administrator, Guildhall, Worcester WR1 2EY. Telephone: 01905 722027 (direct line); E-Mail Address: [committeeadministration@worcester.gov.uk](mailto:committeeadministration@worcester.gov.uk).

This agenda can be made available in large print, braille, on PC disk, tape or in a number of ethnic minority languages. Please contact the above named officer for further information.

Agendas and minutes relating to all City Council Committees and Council Meetings are also available electronically, click on the option "Committee Minutes and Documents", Website Address: [worcester.gov.uk](http://worcester.gov.uk)

**Communities Committee  
Wednesday, 7 June 2023**

**Members of the Committee:-**

Chair: Councillor Jabbar Riaz (L)  
Vice-Chair: Councillor Neil Laurenson (G)

Councillor Basharat Ali (L)  
Councillor Mohammad Altaf (C)  
Councillor Alan Amos (C)  
Councillor Hannah Cooper (G)  
Councillor Jill Desayrah (L)

Councillor Shafaz Ditta (C)  
Councillor Matthew Lamb (L)  
Councillor Karen Lawrance (LD)  
Councillor Tom Piotrowski (G)

C = Conservative      G = Green      L = Labour      LCo = Labour and Co-operative  
LD = Liberal Democrat

**AGENDA**

**Part 1  
(ITEMS FOR DISCUSSION AND DECISION IN PUBLIC)**

**7. Provision of a New Artificial Grass Pitch at Perdiswell**

Page(s): 1 - 4

Ward(s): Claines; St. Stephen

Contact Officer: Lloyd Griffiths, Corporate Director, Operations, Homes and  
Communities  
Tel: 01905 722314

That the Committee note the content of this supplementary report and particularly the information contained within the FAQ link in 3.14, when reaching a decision on the proposed installation of a new 3G Artificial Grass Pitch at Perdiswell Leisure Centre.

**Report to: Communities Committee, 7<sup>th</sup> June 2023**

**Report of: Corporate Director – Operations, Homes and Communities**

---

**Subject: SUPPLEMENTARY REPORT ON THE POTENTIAL ENVIRONMENTAL IMPACT OF THE PROPOSED INSTALLATION OF A 3G ARTIFICIAL GRASS PITCH AT PERDISWELL LEISURE CENTRE**

**1. Recommendation**

**That the Committee:**

- 1.1 Note the content of this supplementary report and particularly the information contained within the FAQ link in 3.14, when reaching a decision on the proposed installation of a new 3G Artificial Grass Pitch at Perdiswell Leisure Centre.**

**2. Background**

- 2.1 Please refer to the main report to be presented at the above meeting - PROVISION OF A NEW ARTIFICIAL GRASS PITCH AT PERDISWELL.

**3. Information**

- 3.1 **POSITION STATEMENT ON 3G PITCHES – The result of a collaboration between key stakeholders in response to questions and concerns regarding ‘Third Generation’ (3G) Artificial Grass Pitches.**
- 3.2 The following is a joint statement produced by key stakeholders (DCMS, Sport England, Sport Scotland, Sport Wales, the Grounds Maintenance Association, Football Foundation, The Football Association, Rugby Football League, Sport and Play Construction Association, and England Rugby on common areas of interest relating to the environmental sustainability of artificial grass pitches and the use of rubber crumb in 3G pitches:
- 3.3 Final updated position statement (April 2023) - “Artificial grass pitches (AGPs) are recognised as a durable, safe, year-round playing surfaces, able to withstand intensive use and all kinds of weather. The pitches are used for playing multiple sports including football, hockey and rugby and they are an important community resource that mean more people can benefit from the social and health benefits of physical activity.”
- 3.4 “However, concerns have been raised about the environmental impact of these pitches. Most commonly this relates to the fibre loss of microplastics and; in the case of third generation or 3G pitches, the presence of rubber infill, which is also a microplastic. We understand these concerns and are taking them very seriously.”

- 3.5 “We are aware of potential developments in the EU following the European Commission’s statement (released in September 2022) which recommended the introduction of a ban on the future sale of ‘intentionally added microplastics’ onto the European market, which includes rubber infill for 3G AGPs. The Commission proposed a six-year transition period before the new restriction becomes effective, although the timing for it to become law has not yet been made clear. Following the UK’s exit from the EU, the regulatory framework for these matters now sits at a UK level (except for Northern Ireland, which will continue to follow EU REACH requirements).”
- 3.6 “The Department for Environment, Food & Rural Affairs (DEFRA) commissioned an evidence project, under the UK REACH 2022/23 Work Programme, to review emissions of intentionally added microplastics. It will consider the risks they pose to human health and the environment and include a socio-economic assessment. The project will include rubber infill and will inform any future regulatory actions in the UK.”
- 3.7 “The Sports Councils – Sport England, Sport Wales, Sport Scotland, Sport NI – and leading sport bodies are working together and with respective governments to understand what the EU ban will mean for the stock of 3G AGPs in the UK and the timings for any legislative decisions.”
- 3.8 “If the EU law on a ban is passed, it will be important to have a transition period because 3G AGPs are in widespread use by communities across Europe, were costly to put in place, and will be to remove. It is also important to note that there are currently no widely available alternative infill products on the market that are as effective, suitable for all weather conditions and deliver the required performance standards. That is why we are also committed to exploring alternative artificial pitch systems and more sustainable infill products. We will continue to work with partners across the UK and Europe to research and reduce the spread of microplastics into the environment.”
- 3.9 This statement has been prepared as result of a collaboration between the key stakeholders listed in 3.2 who have worked together to produce a series of frequently asked questions (FAQs) regarding the use of infill materials in “third generation” (3G) artificial grass (aka synthetic turf) pitches.
- 3.10 The FAQs are provided for general information only and are based on information, research and material that is currently in the public domain.
- 3.11 [Frequently Asked Questions](#)
- 3.12 Additional Information - What effect will the pitch material have on the local environment?
- 3.13 Unlike natural grass, synthetic turf requires very little water. Excessive water consumption is not only bad for the environment, but financially damaging for local authorities, football clubs and schools. Artificial grass also doesn’t require any form of fertiliser to keep it in a usable condition, whereas chemicals used to maintain real grass can have potentially harmful effects on players and the environment.

- 3.14 Natural grass is also far more labour intensive in the amount of maintenance required to regularly cut the grass, mark out the pitches, feed it and weed it throughout the season, and at the end of season an extensive period of maintenance works is required to repair the damage caused by regular use throughout the winter. Therefore, the maintenance requirements for an artificial pitch are far less both in time and cost.
- 3.15 Artificial turf can be repurposed or recycled into other products. After recycling, old artificial grass may be used for anything from school bags to dog bowls or even as topdressing on natural grass. It may also be repurposed and used in areas of highest need.
- 3.16 Since being founded in 2000, the Football Foundation have funded more than 1,000 artificial grass pitches in England alone, and the National Football Facilities Strategy (NFFS) sets out the Football Foundation's ambition to transform England's grassroots game by funding another 1,000 pitches over the next ten years, meeting demand within local communities in a way that natural grass pitches never could.
